

Tripode ZKteco

Stable | Space-Saving | Reliable

A compact, silent turnstile built to handle heavy footfall while keeping entry points secure and organised.

Reduced power consumption:
High-quality electrical components.

Strong & Durable:
Casework & arms made of SK30 Stainless Steel

ZK patented compact mechanism: Ensures the long life of the lubricating oil inside

Full Control:
Allows passage of one person at a time

Space-Efficient Design

Compact structure makes it ideal for locations with limited space.

Durable Alloy Hub

Prevents mechanical wear and ensures long-lasting performance.

Smart Access Management

Electronically controlled passage in both directions, one person at a time.

Emergency Integration

Includes input for emergency button control to allow free passage when required.

Neat Internal Layout

Well-designed electrical protection cover with organised wiring inside.

Built for Real Environments

Performs reliably in indoor and sheltered outdoor conditions.
